

About The Infinite Actuary

Since 2006, The Infinite Actuary has helped tens of thousands of actuarial students taking SOA and CAS exams. We offer comprehensive exam prep courses instructed by the most experienced actuarial exam instructors in the industry. Our products are available on demand, throughout the year, and can be viewed on both desktop and mobile devices.

Predictive Analytics Exam Instructor Position Details

The PA exam instructor will develop and maintain high quality on-demand video lessons, study manuals, practice problems, and other study aids for actuarial students taking the SOA PA exam.

The PA exam instructor will also be responsible for answering student questions in a timely manner in the course forum.

Location and Hours

No specific location required. The PA instructor can work anywhere he or she has sufficient internet connectivity. There is no specific time commitment, but the workload can vary significantly during product development as well as within the exam and customer support cycle.

Qualifications

- FSA, Ph.D. or commensurate Predictive Analytics certification
- Significant experience using the R software package
- Familiarity with the PA exam syllabus
- Strong report writing skills
- Must speak very clear English
- At least 2 years experience in a teaching or instructional role
- Strong drive to simplify highly technical information and explain it in clear terms
- Must be driven to create engaging audio/visual information
- Must have excellent time management skills and ability to deliver high quality materials under time pressure

Compensation

The PA exam instructor will be an independent contractor of TIA and receive a competitive share of all gross sales on the courses he or she instructs. TIA also provides any necessary computer, software, and hardware equipment.
