

ILA-LPM

Quick Start Guide – Spring 2024

Next Exam Date: Wednesday, May 8, 2024

Please be sure to visit and review all information on the [SOA's LPM Exam page](#), which contains the syllabus and all information related to the current LPM exam sitting.

Be sure to register for the exam with the SOA before the registration deadline

- You must [register](#) by the deadline with the SOA to take the fall exam
- We recommend registering *as soon as possible* to secure a seat at your desired Prometric site

Obtain the source readings, which fall into 3 categories:

1. **SOA study notes.** [Purchase online at SOA.org](#). These readings have a code like LPM-###-YY where ### = a serial number and YY = the year it was added to the syllabus.
2. **Published references (free).** These are the hyperlinked readings on the syllabus. You must download each.
3. **Textbooks.** Purchase at a site like the [Actuarial Bookstore](#).
 - *Life, Health and Annuity Reinsurance*, Tiller, Tiller, and Fagerberg, 4th ed., 2015, ACTEX

Get started:

1. **Set your study plan in TIA Study.** It is easy to fall behind if you don't keep track of your progress, but TIA Study is designed first and foremost with that in mind. We strongly encourage you to take advantage of the Today feature to stay on schedule. Alternatively, you can make your own plan in a spreadsheet using the study schedule spreadsheet in the Introduction section.
2. **Review and watch everything in the Introduction section** to ensure you know how to find/use the materials in the online course.
3. Go through the section "Understanding the Format of FSA Exams" and review the [Guide to SOA Written Exams](#).
4. Download the detailed study manual and lesson handouts for Section A, and start.
